

COOP EURO, JSC. - COMPANY PROFILE

COOP EURO, Jsc. was established in December 2000. It is an international purchasing alliance of four mutually non-competitive European cooperative retail systems – Coop Hungary Zrt., COOP Jednota Slovensko, s.d., COOP Centrum Družstvo and Central Cooperative Union - Bulgaria. All of these retail systems are well-known on their native markets for their dominance and decisive influence on the retail market.

The COOP EURO company has been built as a modern European company, which provides unique opportunities for integrated trade and supplementary activities, used by the national headquarters of COOPs.

The importance of the establishment of the company is namely in its strong business partnership, know-how, profound knowledge of common markets and regional features.

COOP EURO Jsc.

performs the following activities in particular:

- purchasing and marketing activities
- arranging multinational private label products
- co-operation and exchange of knowledge and business know-how of shareholders

COOP EURO

is a reliable purchaser, a trustworthy business partner representing the power, quality, security and tradition of co-operative retail.

CORPORATE STRATEGY:

- to strengthen the position of our members on the local markets by joining the local priorities on international level
- to stabilize COOP EURO as an international strategic buying alliance
- to maximize the benefits of joint-buying operations

PRIVATE LABEL COOP PREMIUM

COOP EURO, Jsc. presents to customers of its shareholders an international premium private label COOP Premium. It complements the national headquarters private labels.

COOP Premium is strong, modern, international retail trade label, assisting the cooperative retail trade to increase its competitiveness.

The products of this brand meet the highest quality standards and are determined in particular for the most demanding of customers. Even though they are classified in the premium category, they are cheaply priced. From that reason the customer has the opportunity of buying these products at lower prices than other premium products.

The choice of name was not selected just by chance. It is universal for all four markets, which have different languages, as well as characterising the qualitative parameters of the product.
